

Paolo Navarretta

Web Developer

ABOUT ME

My name is Paolo Navarretta and I'm a Junior Web Developer from Italy. Since my childhood I've always had a strong interest in Computers and Technology. In November 2017 I began to study, on my own, the main languages and technologies of Web Development.

I love to work as a developer because technology, thanks to its dynamic nature, it's an ever changing field that offers, every day, new challenges and new problems to solve.

JOB EXPERIENCE

JUNIOR DEVELOPER

2020-PRESENT

OIA SERVICES LTD, MALTA/ITALY

I've started to work with the company OIA Services in September of 2020. I'm writing and updating styles and features for their 2 websites: Betaland and EnjoyBet. The stack I'm using/studying is formed by Angular 7 on the Front End and asp.net and MongoDB for the Backend.

JUNIOR FULL STACK DEVELOPER

2018-2020

ENDESIA SNC, ITALY

I've started to work with this Italian agency in May 2018. In the 2 years that I've worked there I've done almost 40 commercial websites, ranging from restaurants, hotels, b&b to private drivers, touristic guides etc. The stack with which I've worked everyday was: HTML, Bootstrap4, SASS, jQuery for the Front End and PHP, Zend Framework, MySQL and a custom proprietary CMS for the backend/backoffice.

PERSONAL PROJECTS

2017-2018

Self-Taught

From November 2017 to May 2018 I've studied and worked on personal projects, most of them still available on my personal portfolio/website: www.PaoloNavarretta.it
